[Baby balloon]

I can't seem to find my way of life

Since you've been gone, I feel lonely at night

I close my eyes and it's alright

It takes a second to remember them

"Boom, boom, boom," said my heart

When I first saw you

When we were just getting closer

"Down, down, down," says my mind

Now that love is gone

I feel that it's time for me to say

(Bye bye bye)

Bye bye baby balloon

My feelings are blue

One day you were mine

We're now just apart

Bye bye baby balloon

My feelings were true

We thought it just right

To pass it bye

Bye bye baby balloon

My feelings are blue  
One day you were mine  
We're now just apart  
Bye bye baby balloon  
My feelings were true  
We thought it just right  
To pass it bye  
To pass it bye  
To pass it bye  
(Bye bye bye)
