This afternoon when I came home from work I didn't
expect what I was about to see my darlin wife was layin
in my bed with
Some other man than me well it was ol Tommy Johnson
the neighbors oldest son and as the anger filled me up
well I reached for
My gun and he screamed and said please don't do it as
the hatred was runnin through my head as I pulled the
trigger back
Slowly but surely he took his last breath and he fell face
down dead
Well my wife just sat there cryin in pure disbelief from
what I'd done I said as much as I love you dear I just
can't trust
You and his death wont be the only one and she
screamed and said please don't do it as the hatred
was runnin through my head
As I pulled the trigger back slowly but surely she took
her last breath and she fell face down dead
Now I'm all alone with nowhere to run and I don't have
no place to hide this murderin gun no I wont live my life
out in no 8
By 10 cell as I reach for my gun and it's one lonely shell
and sirens screamed as I stood there with that.38 to my
head as I
Pulled the trigger back slowly but surely I took my last
breath and I fell face down dead
