Tell me your secrets - tonight
Show me your heart
You gotta do it - tonight
Free your mind and leave it all behind

Move to the music - tonight
Just let go because tomorrow is another day
You gotta feel it - tonight
Feel the good vibrations deep inside

Cuz all you gotta do is dance tonight
Until the bright morning light
So make your body move to the groove
Come on let's do it
Life is too short -
To hide -
Let your hair down

Let's kill the silence - tonight
Get up on your feet and dance it down
Use every part of - your body
This beat will keep you spinnin' round and round

Cuz all you gotta do is dance tonight
Until the bright morning light
So make your body move to the groove
Come on let's do it
Life is too short -
To hide -
Let your hair down

Let your hair down

Let your hair down

Cold midnight rain is pourin' down

Down to the torrid dancing ground
No one can stop us, not tonight
Cuz we're gonna dance until the morning light

Cuz all you gotta do is dance tonight
Until the bright morning light
So make your body move to the groove
Come on let's do it
Life is too short -
To hide -
Let your hair down

All you gotta do is dance tonight
All you gotta do is dance tonight
All you gotta do is dance tonight
All you gotta do is dance tonight

Tonight -
oo, oh-oh-oh
oo oh-oh-oh

Dance tonight!
