"Hell on Earth"

Tell tale signs of disintegration,
High rise down size travesty.
The sense of monetary inflation
Drain our pockets and sanity.

Migratory fiscal being
Starving to death for our daily bread.
They want a war to jump start the economy,
Because they don't need to feed the dead.

We have become the destroyer of worlds.
We have become the gods of destruction.
We have desired the warmth of spilled blood.
We have been numbed to over consumption.

Hell on earth, hell on earth.

What we have is hell on earth.
What we need is to stop the emotion.
What they want is hell on earth.
Fat cat kickbacks, white collar devotion.
