The earth keeps on shaking
But I'm standing still
The chances I'm taking
Against my will

When we made it to the top
We'd watch it fall, couldn't stop
But everything you leave behind
Catches up in another time

So just pull over to the side of the road
This is where I get off, this is where I move on
I know where I went wrong
'Long the way, 'long the way, hey

Walking out on the boys
Was never the plan
We just drifted off course
Couldn't strike up the band

We'd been working the graveyard shift
I wonder, do you catch my drift?
This was trouble in the making
But it's a risk well worth taking

So just pull over to the side of the road
This is where I get off, this is where I move on
I know where I went wrong
'Long the way

This where I get off, this ain't where I belong
Somebody done me wrong
'Long the way, 'long the way

So just pull over to the side of the road
This is where I get off, this is where I move on
I know where I went wrong
'Long the way

This where I get off, this ain't where I belong
Somebody done me wrong
'Long the way, 'long the way

'Long the way, 'long the way
