Fear not this night, you will not go astray.
Though shadows fall, still the stars find their way.
Awaken from a quiet sleep, hear the whispering of the wind.
Awaken as the silence grows in a solitude of the night.
Darkness spreads through all the land and your weary eyes open silently.

Sunsets have forsaken all and must open their eyes and,
Nightmares come when shadows grow...
Ice glows and heartbeats slow.

Fear not this night, you will not go astray.
Though shadows fall, still the stars find their way.
And you can always be strong.
Lift your voice, with the first light of dawn.
Dawn is just a heartbeat away
Hope's just a sunrise away.

Distant sounds of melodies calling through the night to your heart.
Auroras, mists and echoes dance in the solitude of our life.
Pleading silent arias gently grieving in captive misery.
Darkness sings a forlorn song and yet our hope can still rise up.
Nightmares come when shadows grow.
Lift your voice, lift your heart.

Fear not this night, you will not go astray.
Though shadows fall, still the stars find their way.
And though the night sky's filled with blackness...
Fear not rise up... come on and take my hand.
Fear not this night, you will not go astray.
Though shadows fall, still the stars find their way.

Fear not this night, you will not go astray.
Though shadows fall, still the stars find their way.
And you can always be strong.
Lift your voice, with the first light of dawn.
Dawn is just a heartbeat away

Hope's just a sunrise away.
