You always promised me
That you would always be right here
The summer is gone you see
Here comes the winter, you're not there.
I should never let you go
Cause you're a part of me

In your eyes, no one could ever see
That you lonely baby, please tell me why
In your eyes, you may pretend you're free
But i know you so well, love will come back you'll see

The things that you've done for me
I just look back but you were gone
Remember those things that we share
Only you memory lingers on
I don't want to fall apart
Please come back to me

In your eyes, no one could ever see
That you lonely baby, please tell me why
In your eyes, you may pretend you're free
But i know you so well, love will come back you'll see

[solo guitar]

In your eyes, no one could ever see
That you lonely baby, please tell me why
In your eyes, you may pretend you're free
But i know you so well...
In your eyes...
In your eyes, you may pretend you're free
But i know you so well, love will come back you'll see
