"All I Want"

Visit "[All I Want](#)" on motolyrics.com

all i want is my frustation to be replaced with signs of
spring

all i want is confirmation that you're gonna see me
through this thing

(chorus:)

all i want..all i want is you

all i want is just a window to let me know there's light
outside

all i want is confirmation that what iim feeling isn't
right

(chorus)

all i want is that you'd find me and i'd have nothing
more to say

all i want is pure reflection of the one who's standing
right in front of me

(chorus)
