Can we do it again

Take that, take that

[Chorus]

You alright star

No star

You alright star

You alright star

No star

I don 't feel proper

[1st Verse]

I went to the dr to get a prescription

I told him little fact and lots of fiction

About a bad back that I ain't got

He tried to sell me faith healing

But I think not

I want Xanax, Vicadin and Oxycotton

Funky fill the form out

So I can drop em'

I've got all these demons

And I can't stop em'

To tell you the truth Doc

I might have a problem

Robert Williams take one adoral with water in the morning

As if I'm goin' to take one tablet I'm Keith Moon

Dick head

[Chorus 2]

He said this one's to take you up

Wow how

He said this one's to take you down

When I take um I don't feel sound

And I look rather... Round

You alright star

No star

You alright star

No star

You alright star
No star
I don 't feel proper

[2nd Verse]

You know what Doc it's alright and all
I just heart me leg it's not terminal
But a pain killer could help for what's wrong with my
knee
And I'm a little bit down from too much tea
Got me own collection can't get an erection
If I take em' too long they'll fuck me complexion
That's right If I take em for like more than a few days I
get that haunted look

Give me loads of pills
Give me loads of pills
Give me loads of pills
Give me loads of pills

[Chorus 3]

He said this one's to take you up
Wow how
He said this one's to take you down
Wow how
When I take um I don't feel sound
And I look rather... Round
You alright star
No star
You alright star
No star
You alright star
Five star
I don't feel proper

[Middle 8 ish]

Now if you go to the barber shop long enough then
you're goina' get a hair cut
And if go to the doctors regular, then you gots to be a
fuck up
Well I've got 5 or 6 if I'm at a loss
Do I have a history of drug abuse, well I never tick that
box
And I now that some of you are going to be really really
cross
The drug's stop working so prescription pills are boss
The glory days are gone and we've all stopped havin' it
No raves no more just bedside cabinet
Sleepers are great but don't start dabbing it

The world carries on spinning we're mad in it
Take that, take that

[Chorus 3]

He said this one's to take you up
Wow how
He said this one's to take you down
Wow how
When I take um I don't feel sound
And I look rather... Round
You alright star
No star
You alright star
No star
You alright star
Five star
I don't feel proper
You alright star
No star
Are you five star
No star
You alright star
Five star
I don't feel proper

Know what doc, it's not like I've been doin' any research
or anything
But if you can give me any of the following pills
I'd be very very grateful cos I feel poorly
So that's
Codeine
Morphine
Opium
Methadone
Menocrabedene
Hydroanoxycodine
Anolodene
Buprenopheine
ButroPhenol
Adorel
Dorel
Work with me antidepressants
But not Saint Johns Wort
Cos I can get that at
Boots!
