God's resplendent glory full

On display for all to see

God creator "God of hope

Beautiful redeeming Grace

Healer of the broken down

Of the orphans and oppressed

Find Him dining with the poor

Find Him here surrounding

Chorus:

Hallelujah God is near

Hallelujah God is near

From oceans depth to cedar trees

Fields of wheat along the plains

Praise to God from all the earth

Praise Him from the mountaintops

Chorus: (2x's)

His radiance is greater than

Anything on earth and sky

Stars and moon will guard the night

Shining to the God on high

Let true love break out in praise

Let it dance and praise His name

All creation join to sing

Hallelujah to the king

Chorus:

(2x's)

We love, oh, we love

We sing, oh, we sing to You

We shout Hallelujah

We shout Hallelujah
