Jesus, garden of my rest  
Your fragrant beauty fills the air  
I lean and lay against Your chest  
Forever safe and happy there  
Eyes that flame with holy fire  
I stay my love and fix my gaze  
You emet and fill my heart's desire  
And fill me with Your perfect grace  
I love You more with every passing day  
I love You more each time the sun displays  
I love You more and more  
Every passing day  
I love You more every passing day  
Jesus, garden of my rest  
Your fragrant beauty fills the air  
Yours is the face I love the best  
Most loved - most high - dear and fair
