thoughts of you take over me  
like darkness takes the evening sky  
and for a moment i am overcome with you  
make believe could never write a story so beautiful  
than you loving me in spite of me  
its more than make believe  
(chorus:)  
your love changes me..  
(4x)  
black and white surround myworld  
if you don't go on loving me  
the colors of the rainbow will fade  
toblack and white  
letters that you wrote to me  
i hide them deep within me  
in hope that i will someday  
hold the hand that wrote letters to me  
your love changes me...  
(4x)
