Everybody wants to run my life, keep me all tied up
I don't know how to take it
I want to be someone who lives his life, I don't need no
one
To tell me how to make it
Let me live my life, I wanna live my life
Everybody's tryin' to tear me down, wanna stand my
ground
I'm gonna take it to the limit
People try to make me compromise, I don't believe
their lies
It's my race, I'm gonna win it
Let me live my life, I wanna live my life
(Solo)
There's always someone tryin' to rock my dreams, I can
hear their
screams
But I can see the spirits
I feel the power rushin' through my blood, gonna make
it alone
I'm gonna see it to the finish
Let me live my life, I wanna live my life
