There's something moving
In the air tonight
Something moving
At the speed of light

And it's calling
Calling, calling to you

I got a feeling
Rushing through my head
We might never get
This chance again

And it's calling, calling
Call to you, yeah

If the time should call
Should they'll find
What we believe
Then you can believe
I'm coming on

Like a mega force
Mega force
Like a mega force

There's a feeling
From inside the sun
There's a message
In the rock and roll

And it's calling, calling
Calling to you, yeah

Every night
Has got to compromise
There comes a time
To stand and fight

And it's all been
All been long overdue, yeah

I can't understand
But I've only been so far
Then you can believe
I'm coming on

Like a mega force
Mega force
Like a mega force

Oh, mega force
Mega force, yeah
Like a mega force

Calling out to you, oh
Calling out to you
Calling out to me

Mega force
Mega force
Coming on
Like a mega force

Coming on
Coming on
Like a mega force
