Sometimes I wonder 'bout the pages of my life  
As each new chapter comes of age  
I set the theme, I spell the words, I rhyme the lines  
Then why can't I read what's on the page?  
Chorus:  
I'm heading on down a one-way highway, searching for  
a sign  
That leads the way, so fast from day to day  
I'm heading on down this one-way highway,  
somewhere down the road  
Another morning waits for me, each day another  
mystery  
I'll take it on my own, go there alone  
Lately I wonder, what I'm learning on my way  
There's so much left I need to know  
Life is a river, that's searching for a source  
How far do I still have left to go?  
(chorus)  
Looking out to the highway, I search for love, but still  
I'm alone  
What's wrong with me, am I losing ground? I can't find  
the way back  
home  
(Solo)  
Turn the page around, find what I left behind  
Now that I'm on my own, it's not what I wanna find  
I wanna settle down, I, I turn the page around  
I want to find my way back home, why can't I find my  
way back  
Home, home, home, home, oh, oh, oh, oh  
I'll find my way back home
