Save me - now that I'm shaking down to my knees
Save me - nobody else could make me say "please"
On Tuesday night, you telephone, you make plans, you
take me home
When I arrive, you're not alone, no
Save me - what kind of fool are you takin' me for?
Save me - open your heart or I'll break down the door
Your [prowling] friends, your cocaine eyes
You been [through just] where it applies
But after all, it's no surprise - that maybe you just might
Save me, save me
(Solo)
That maybe you just might
Save me - now that I'm shaking down to my knees
Save me - nobody else could make me say "please"
Save me - what kind of fool are you takin' me for?
Save me - open your heart or I'll break down the door
