She is my everything  
From her sun tanned shoulders  
Down to the freckles  
On her wed'n ring  
Her feet are so warm  
They can melt the snow  
In the early spring  
She is my everything

She goes everywhere  
From Copenhagen  
To make'n eggs and bacon  
Down in Jackson Square  
I'd like to drive  
A Cadillac  
The color of  
Her long black hair  
She goes everywhere

Kisses that come all the way from China  
Kinda remind her  
Of memories of Spain  
If I get lost  
You can always find her  
Standing right beside me  
In the rain

She uses Eveready  
Batteries to keep  
Her electrical appliances  
Going steady  
She can do  
14 things at once  
And then her phone'll ring  
She is my everything

She knows everybody  
From Muhammad Ali  
To teaching teaching Bruce Lee  
How to do Karate  
She could lead a parade

While put'n on her shades  
In her Masaratti  
She knows everybody

Kisses that come all the way from China  
Kinda remind her  
Of memories of Spain  
If I get lost  
You can always find her  
Standing right beside me  
In the rain

She is my everything  
When she wakes up in the morning  
That's when the birdies  
Start to sing  
When I hear her voice  
I'll tell you boys  
I forget everything  
She is my everything  
She is my everything
