"Whole Lot Better"

Visit "[Whole Lot Better](#)" on MotoLyrics.com

When I sleep, will you be right next to me
I need you beside me, when the morning comes
And if I dream, will you bear that dream with me
I need you inside me, when the morning comes
When the morning comes
Chorus:
It's gonna be a whole lot better
I feel it down inside, I need to have you next to me
It's gonna be a whole lot better
Oh inside you, my love will be all right
Like the sun, how your brightness fills my eyes
When I'm here beside you, 'til the morning comes
As for words, there's not one that can describe
All the love around you, when the morning comes
(chorus)
(Solo)
(chorus)
(Solo)
Take me lady, oooh, why don't you, lady, lady, oh
Yeah, lady, I wanna be next to you...
Lady, lady, oh... (to fade)
