Braindead

So you think that you've had enough of this world

Can't find yourself, you can't even find a girl

Someone who will look nice standing next to you

Telling you bullshit that's nowhere near the truth

Yeah

Braindead

You're used up like a puppet and there's nothing new  
for you

Braindead

When are you gonna start doing what you want to do

I'm braindead, you're braindead, he's braindead,

they're braindead

I'm feeling kinda braindead

Don't tell me what to do cause it is nothing

Nothing new for you

When are you gonna start doing what you want to do

Why don't you tell me what the fuck you're gonna do!

Braindead.
