Hanging around and waiting for another fix
Scrounging for some change so you can get your fix
Don't want to think about it
I just want to be around it
I just want to be high
Because I know I'll never die
My life revolves around buying an ounce or pound
I just need another fix
You can get anything you need at the Mini Mart
A Slurpee or a gram of Speed
It's the cheapest place around
At the Mini Mart
It's the best place for drugs in town
We're the Assorted Jelly Beans and we really like to
play
Come and see us anytime
Anyplace, or any day
