It's been one year  
Conservatives you fear  
You've done nothing  
I think you need a beer  
You had the master plan  
Millions of stoner fans  
Just don't inhale  
You told Ross to go eat shit  
You told George you're sick of it  
Just don't inhale  
One day you're young and glad  
Next day you're as old as Dad  
What's up with that health care  
Eased everyone's scare  
I still can't get over your hair  
What's up with that?  
Time's up Mr. Bill  
Your crusty daughter gives me the chills  
She looks like she was incested  
Your wife's got bigger balls than you
