This is what ya get when you don't use your brain  
The shit just gets worse and it makes you go insane  
Just leave the itch alone and you'll be alright  
Leave the itch alone and you'll make it through the  
night  
1, 2, 1, 2, 3, 4  
Na, na, no time to fight so why's it gotta be  
The machoness is there and everyone can see  
You single someone out and you start a fuckin' fight  
Well let's just see how much ass you kick tonight  
Go  
You're losing, you're losing  
You can't take anymore  
You're losing, you're losing  
He has you on the floor  
But now you're winning, you're winning  
The anger is now there  
You had him by the head and you pulled out all his hair  
Yeah break that shit down homie  
How long does it feel now that you stole the show  
Kicked out by yourself and nowhere to go  
Now you both are feeling tough so you go at it some  
more  
You punch him in the face  
4 and 4 is now the score
