When You're weary and feeling small
And tears are in your eyes
I will them all
I'm on your side
When times get rough
And friends just can't
can't be found
Like a bridge over troubled waters
I will lay me down

When you're down and out
When you're on the street
And evening falls so hard
I will comfort you
And I'll take your part
When darkness comes
And pain is all, All around
Like a bridge over troubled waters
I will lay me down

Sail on silver boat
Sail on by You're time has come
To shine
And all your dreams are on their way
See how, how it shines
And if you need a friend
I'm sailing right, right behind
Like a bridge over troubled waters
I will ease your mind
Like a bridge over troubled water
I can ease, Ease your mind
Like a bridge over troubled waters
I can ease your mind
