Set the night to music  
Set the night to music

Look at all the stars tonight  
Look at all the moonlight  
Look at us we're all alone

Oh, and it's just like a dream  
Like some romantic fantasy  
Darlin' come and hold me close  
We could be makin' love  
And with the slightest touch

We could set the night to music  
We could set the night to music  
We could do what we want to do  
It'll only take me and you  
To set the night to music

Find a rhythm on our own  
Melt into it nice and slow  
Love ourselves away from here

Your heart beating next to mine  
Perfect love in perfect time  
Watch the world just disappear  
This moment is ours to take  
And with the love we make

We could set the night to music  
We could set the night to music  
We could do what we want to do  
It'll only take me and you  
To set the night to music

This moment is ours to take  
(This moment is ours)  
And with the love we make  
(And with the love we make)  
And with the stars that shine

We could set the night to music

We could set the night to music  
We could do what we want to do  
It'll only take me and you  
To set the night to music, to music

Set the night, set the night to music, to music  
(Set the night to music)  
Set the night, set the night to music, to music  
(Set the night to music)  
Set the night, set the night to music, to music  
(Set the night to music)

We could be makin', we could be makin' love  
(Set the night to music)  
Tonight, makin' love, makin' love with the stars above  
(Set the night to music)  
We could be makin' love, makin' love, yes we could,  
with the stars above  
(Set the night to music)  
Makin' love with the stars above  
(Set the night to music)
