Our love will live
Our love will last
This is not a dream
That ended with the dawn
It's one that fate intended
To go on and on

This isn't sometimes
This is always
This isn't maybe
This is always
This is love
The real beginning of forever

This isn't just
Midsummer madness
A passing glow
A moment's gladness
Yes, this is love
I knew it on the night we met

You tied a string
Around my heart
So how can I forget you?
With every kiss I know that
This is always

This is always
This is always

This is always
This is always

You tied a string
Around my heart
So how can I forget you?
With every kiss I know
That this is always
