Chorus:

Everybody now get up on the dance floor.
Everybody now get down on the floor.
Everybody now get up on the dance floor.
Everybody now and I'll beg 4 more.

So do that crazy thing you do
and everybody knows it's true
that you're that guy that does that thing
that makes me wanna dance and sing.
So if you don't know what to do then make up your own
style.
Just come on baby do that thing cause this is your last
trial.

chorus

Hey baby what's goin on?
The party's over here where I sing this song
So come on boys,
Crank up the noise.(la la la la la)
Grab a girl and dance all night
It goes like this, ya, do it right.
(dance break)

That's the way to do it(ya!), glad you all joined in.
Dancin's all that matters now, not style or skill or skin.
(Dance Break)

Everybody now get up,up,up,up,up
Everybody now get down,down,down, down
Everybody now get up,up,up,up,up
Everybody now and I'll beg 4 more
