No Cure For A Tragedy

[Verse 1]

I feel lost in the world today
And I don't think I'll make it home
Surroundings everyday
Doesn't seem to matter when I'm gone

Blue skies won't fade away
When the air is wearing cold
And I don't need this life
Take me away now!

[Chorus]

I am breaking down inside
You're tearing out my heart again
I never win
Tell me what you're thinking

There's no keeping me alive
When I just want to die for you (Die for you)
'Cause nothing really matters anyway
To me...

[Verse 2]

Is there a cure for tragedy
Or a drug to take away the pain
No light will lead the way
Being lost is all I've ever known

No God to save the day
When the air is wearing cold
And I don't want this life
Take me away now!

[Chorus]

I am breaking down inside
You're tearing out my heart again
I never win
Tell me what you're thinking
There's no keeping me alive
When I just want to die for you (Die for you)
'Cause nothing really matters anyway
To me...

[Bridge]

Now this house is empty
Like the hole within me
Where my heart is to be

Now everytime I see you
I give my life to have you
Right back here with me

Yeah!

[Chorus]

I am breaking down inside
You're tearing out my heart again
Tell me what you're thinking

There's no keeping me alive
When I just want to die for you (Die for you)
Die for you!

[Outro]

I'm gonna find a better way!

(You're tearing out my heart again, I never win)
(Tearing out my heart again, I never win)

I just wanna die!
I just wanna die!

'Cause nothing really matters anyway
To me...
