The Victim EP/ Love, Lies and Therapy

Same Old Story (S.O.S.)

[Verse 1]

She's shaking like an earthquake
Her body hides the bloodstains
Until the morning when she wakes
'Cause the sheets don't lie (She still lies in vain)

Mysterious in her mind
Funnels all the trends in headlines
What a beautiful tragedy
Didn't want to be, what she's become tonight
(She's becomes tonight)

[Chorus]

It's the same old story
And the world keeps spinning
It's the same old (same old)
Cheap old hints that keep them coming back (back x5)

[Verse 2]

Another stake out leads to nowhere
And yet they just keep on laughing
Sees a picture and the headlights running out of time
And the bottle's empty

Now she's tasted
All she's wasted
Could run away
No you have to stay
And all of the wrongs will turn to right

[Chorus]

It's the same old story
And the world keeps spinning
It's the same old (same old)

Cheap old hints that keep them coming back for more
It's the same old story
And the world keeps spinning
It's the same old (same old)
Song and dance that keeps them coming back for
more!

It's the same old story
And the world keeps spinning
It's the same old (same old)
Cheap old hints that keep them coming back for more
It's the same old story
And the world keeps spinning
It's the same old (same old)
Song and dance that keeps them coming back for
more! (Keeps them coming back)

For more! (Keeps them coming back)
