

Robert Bradley's Blackwater Surprise "Gambler"

Visit "[Gambler](#)" on MotoLyrics.com

Can you see it when it's coming?
Feel the danger, got you running
For the color, disappearing
So much gray skin is appearing

They never see the day of light
They like to feel in the night
They like to gamble in the street
They like to gamble with your life

Can you hear it when it's calling?
Turn your head but keep on talking

Trying to stay cool
The demons keep on pulling
Someone keeps on giving
The fire keeps on burning

They never see the day of light
They like to feel in the night
They like to gamble in the street
They like to gamble with your life

They like to gamble in the street
They like to gamble with your life
They like to gamble in the street
They like to gamble with your life

Daylight is coming
Devil got you running
City bus is humming
The future is running

Sometimes I feel that
It's time I'm on my way back
Find out where I been from
God knows I need some

They never see the day of light
They like to feel in the night
They like to gamble in the street
They like to gamble with your life, with your life

They like to gamble in the street
They like to gamble with your life
They like to gamble in the street
They like to gamble with your life
They like to gamble in the street
They like to gamble with your life

(Oh, in the middle of night)
They like to gamble in the street
They like to gamble with your life
(They gamble in the street)

(Oh, in the middle of the night)
They like to gamble in the street
They like to gamble with your life
(They gamble in the street)

They like to gamble in the street
They like to gamble with your life
They like to gamble in the street
They like to gamble with your life, yeah, yeah

They like to gamble in the street
They like to gamble with your life
With your life, with your life, with your life
