Oh put your hands together, all together
Join in one by one
'Cause I've got to say I thank you
To the world's greatest mum

I remember oh so clearly
When I was just a little boy
How mum was there to guide me
To turn sorrow into joy
And no matter what the problem
She could always put it right
Be on call for twenty-four hours
Through every day and night

So put your hands together, all together
Join in one by one
'Cause I've got to say I thank you
To the world's greatest mum

Now here I am a grown man
With children of my own
We'll build a life together
So they'll never be alone
And they'll have their mum to guide them
Like their nana did for me
To help them help each other
Oh what a family it will be

So put your hands together, all together
Join in one by one
'Cause I've got to say I thank you
To the world's greatest mum

Oh, put your hands together, all together
Join in one by one
'Cause I've got to say I thank you
To the world's - greatest mum
