

## Robert Calvert "Catch A Falling Starfighter"

Visit "[Catch A Falling Starfighter](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Catch a falling starfighter  
Put it in the pocket of your jeans  
You can use it as a cigarette lighter  
Or as an opener for a can of beans

Catch a falling starfighter  
Shine it up and wear it on a chain  
You will find that it will be much brighter  
If you empty out it's cockpit down the drain  
If you empty out it's cockpit down the drain

I focused the magnifying glass  
That brought the downfall of Icarus  
Balloons were easy, a simple pin  
Or a knife in the case of the zeppelin

That blade was the cause of many a prank  
In the early days of stick and string  
I am the gremlin, I was there  
Making mischief in the air  
And always will be wherever man  
Flies in the face of creation's plan
