There's only one course of action  
Left for me to take  
I've tried every switch selection  
That might control this state  
I think for my protection  
I'd better make it straight  
Into ejection  
Better tell base, ejection  
That I think it's a case for ejection  
Blown into space, ejection  
Protect my face, ejection

The radar screen's projection  
Tells me I'm too late  
To make a course correction  
I'm about to meet my fate  
No time for reflection  
I'd better make it straight  
Into ejection  
Bust through the sky, ejection  
The air rushing by, ejection  
It's a case of goodbye, ejection  
I'm too fast to die  
Ejection

When a ship meets with destruction  
The captain stays to drown  
But no tin contraption  
Is going to drag me down  
My reference intersection  
Tells me that I'm bound  
For ejection  
Eight times my weight, ejection  
Got to escape, ejection  
Only one move to make, ejection  
Abandon this crate, ejection  
Abandon this crate, ejection
