I remember every line on your face I just can't
remember your name
I miss you so much when you're not here, although I
know it's just not the same
Sometimes I feel if I could just touch you, you know it'll
be alright, alright

When will, when will it be over
Just let me know I'll be alright, I'll be alright
Never did like surprises, never did like goodbyes

Don't look at me with those tears, don't think of me with
regret
Think of me with the birds and the flowers, think of me
in a lover's sunset
And know please know the love I have for you, never
ending never far away

Rolling on like the waves over the oceans
Always warm like the sun on your face
Never did like surprises, no no no
Never did like having to go away

When will, when will it be over
Just let me know I'll be alright, well I'll be alright
Never did like surprises, no no no never did like
goodbyes
