"Sins Of The World"

A deep breath to cleanse away
All those things we fear
You try but you can't go on
Got to get out of here

Angels in arms
Sheltering me hiding the eyes of hate
Tying my hands with blood of man
Never gonna sleep again

You you
Take away the sins of the world
You you
Take away the sins of the world
Leaving them for me
Knowing I can't be saved

Lies can be bought or sold
Even if no one's left to hear
Time it will pass you by
Curses your name and leaves you there

Constantly down, down on my knees
Pleading day after day
Crying for hope, battered and broke
Someone take me away
