When the lights come up I feel alive
Everything bad gets shoved out of sight
1000 flames light up the night
I hear you scream, I hear you scream

This is my place Join me on the mountain
This is my home Come inside it's all for you
This is my place Join me on the mountain
This is my home Climb on the Wrecking Ball

Every piece of my soul I give for you
Nothing to hide or lock away
Time stands still together we fly
I hear you scream, I hear you scream

This is my place Join me on the mountain
This is my home Come inside it's all for you
This is my place Join me on the mountain
This is my home Climb on the Wrecking Ball

This is my place Join me on the mountain
This is my home Come inside it's all for you
This is my place Join me on the mountain
This is my home Ride on the Wrecking Ball

This is my place Join me on the mountain
This is my home Come inside it's all for you
This is my place Join me on the mountain
This is my home Climb on the Wrecking Ball
