Time in Time I thought through it all  
How we loved and loved  
and how we fought each other  
pushing one another  
to be somebody else

and time in time for the rest of my thoughts  
I certain if the end was right or wrong  
and wether we so should be together with somebody else

a lost memory  
she had water in her eyes  
she cried stay with me  
say how can this be loved  
if you are leaving me  
but darling love's to blame

and i can't see you right now  
'cause my heart just can't take it  
can't be near you right now  
'cause i know you're no longer mine  
I can't see you

it makes me ache that we had to break  
even though i knew your heart so well  
we're strangers in different places  
thought we're livin mile apart

my best friends got my world as being soft  
we'll never share a name of her be promed  
but i will always remember the years we've spent in love

I still think of you  
I pray that you were save  
I'm still missing you  
but it has to be this weakest

I'm not right for you  
and that's why love's to blame

and i can't see you right now  
'cause my heart just can't take it  
can't be near you right now  
'cause i know you're no longer mine  
I can't see you right know  
'cause my heart just can't fake it  
can't be near you righth now  
cause I know you're no longer mine

and I can't see you  
oh i can't see you  
I just can't see you right now

But maybe time will heal the hearts  
and maybe after time you'll understand  
I take the darker side of me

and i can't see you right now  
'cause my heart just can't take it  
can't be near you right now  
'cause i know you're no longer mine  
and I can't see you right know  
'cause my heart just can't fake it  
can't be near you righth now  
cause I know you're no longer mine

and i can't see you  
no, i can't see you  
i just can't see you righth now

no i can't see you  
i just can't see you  
i just can't see you right know

and love's to blame

Submitter's comments:Â

It's a soundtrack of The Vampire Diaries. I heard there and i loved loved loved it. Have fun with that  
(By the way please listen it: )

Hope you'll like it
