B is for Brain  
Cause I got brain damage  
I'm deranged, insane  
Got cerebrum like a cabbage

H is for Honesty  
I'm not gonna hide it  
The doc gave me some Prozac  
Cause my life is undecided

R is for Relationships  
And mine are nonexistant  
Cause my friends and my women  
I like to keep them distant

S is for Solitude  
I live in isolation  
Building beats, cooking treats  
Making waves of radiation

My sound travels through walls  
Beats drop like waterfalls  
Stand tall, never fall  
Razor blades and shopping malls  
Suicide, DJs die  
Cut like vinyl superfly  
Time to die, close my eyes  
All I want is for my sound, to multiply  
(They're only going to multiply) to multiply  
My sound, to multiply  
(They're only going to multiply)

Hope you learned your times tables BEEYOTCH!

D is for Death  
Because death is certain  
Even free houses sometimes have  
To close the curtain

G is for Glory  
Cause my fate will be gory

If I do a Kurt Cobain to leave  
Behind my story

N is for Notorious  
From England to Mauritius  
Biggie Smalls, number one  
It's a shame he's now fictitious

Zed is for Zoo  
That's where I belong  
Cause my life is a prison  
With the music industry looking on

My sound travels through walls  
Beats drop like water falls  
Stand tall, never fall  
Razor blades and shopping malls  
Suicide, DJs die  
Cut like vinyl superfly  
Time to die, close my eyes  
All I want is for my sound, to multiply  
(They're only going to multiply) To multiply  
My sound, to multiply  
(They're only going to multiply)

My sound travels through walls  
Beats drop like waterfalls  
Stand tall, never fall  
Razor blades and shopping malls  
Suicide, DJs die  
Cut like vinyl superfly  
Time to die, close my eyes  
All I want is for my sound, to multiply  
(They're only going to multiply)
