[Verse 1:]

These late night skypes aint cutting it
Cause honestly it aint the same when I'm touching it
And hearing your voice on the phone is cool
But I'm missing what both of our lips do
Ya know Kiss?
Missing your scent as crazy as it sounds I even
Miss our arguments
To think about it damn we had plenty of fights
You would leave but somehow get back in to my life
Sight seeing trips to the strip
Errthing on me walk out with two fits
Brand new this brand new that
Forget the price tag my girl want the whole rack
Lately it's been different this music thing got our
Love long distance you say I got your trust
Wanna believe this but I know in your mind you think
I'm dipping slipping
Yeah it is a lot of groupies though
But they can't even compare to what I got at home
Playing days down the game let go of that
Cause I finally found a girl that got my back
(She Got My Back)

[Hook:]

Even if the sky falls down
Even if the world come crashing down
Though I'm not with you now
I'm on my Way

[Verse 2:]

I know your friends is all in our business
Telling you I got a main in a mistress
I aint tripping I know you aint listening
They just mad cause you got what they can never get
Yep and that's love
Why would I ever ever give that up?
Looking at our pictures on the tour bus
How can someone I hate be the same person love
And I hate to see sad
Love it when we fight cause you sexy when you mad

And we been through so many many break ups
I can't lie the sex good when we make up
(Make Love)

[Hook:]

Even if the sky falls down
Even if the world come crashing down
Though I'm not with you now
I'm on my Way
