[Hook:]

Baby You are so special to me
Cause without you I can't sleep
I cannot breathe
You are my all and I finally see
You're my kind of Love
Yeah Your my kind of love
Yeah Your my kind of love

[Verse 1:]

I just woke up to your good morning text
We started off as friends never thought that we'd connect
But all do respect your body is the finest
I'm loving all those hips and all that stuff you got behind it
Uh but girl it's way more than the eyes could see
Cause when noone did you believed in me
Looking for love in places that I shouldn't be
But all along love was right here in front of me
Yeah and my mama even feeling you
See that's something that girl could ever do
It's something about you girl you special
I wanna take our love to a whole 'nother level
Cause for you I'll do anything
B. Say if you like it then put on a ring
Bout to hit the shop ain't tripping off the cost of pay
Next time I see you on one knee this what I'ma say

[Hook:]

Baby You are so special to me
Cause without you I can't sleep
I cannot breathe
You are my all and I finally see
You're my kind of Love
Yeah Your my kind of love
Yeah Your my kind of love

[Verse 2:]

You are truly irresistible
It's something bout your love it's simply incredible

And I'll be damned if I ever let you go
But I aint tripping cause I ain't never letting go
I got a tight hold ay can you feel the grip
I ain't gon let nobody alter our relationship
Cause girl we ride girl we roll you love me this I know
Girl we ride girl we roll you love me this I know-oh
And I wanna tell you how I feel and everything I said
girl it so real
I think she stole my heart
I'm bout to call the feds
I Just sent her a text and this is what it said

[Hook:]
Baby You are so special to me
Cause without you I can't sleep
I cannot breathe
You are my all and I finally see
You're my kind of Love
Yeah Your my kind of love
Yeah Your my kind of love

[Bridge:]
And I finally see
Your My Kind Of Love
I cannot breathe.
Finally see

[Hook:]
Baby You are so special to me
Cause without you I can't sleep
I cannot breathe
You are my all and I finally see
