Hey What are you lookin' at
You got people on your left and your right
We'll see what's going on
Said hey what are you lookin' at
You got people on your left and your right
We'll see what's going on

Hey whatcha lookin' at
Starin' at me like there's candy in my eye
When I got nothing but terror to bring
To all the people who be starin' at me
You wanna look this fine, don't care
But if you wanna start shit
You better be lookin' elsewhere, you know

Fuck you fuck you fuck you
You stupid fucking shit

Gonna tickle the clit
Gonna grab some tits
Look at these abs
I'm fit
Gettin' laid by the maid all day
You say you wanna get fuckin' paid
So sit on my dick
You big muscular male
Come look at my pants
I gotta bone to pick

Hey What are you lookin' at
You got people on your left and your right
We'll see what's going on
Said hey what are you lookin' at
You gotta act like the stuff
But when you do it and the crowd goes

Hey, hey, what
And I'll be stoppin'
Droppin', rockin', poppin'
Whatcha lookin' at, 4 foot 4
Stop, drop, roll

Whatcha lookin' at
Give it up, give it up
Give it up, give it up

Talkin' bout the mass destruction
Gonna need some liposuction
Look at my weightclass fade
I wanna say that
Me and your grandma gonna go on a date
So don't hate the player
'Cause you know it ain't fair
I was born with a dick
The girth of a hair
So for all the little people
That be chillin' in the steeple
Yo, yo, YO

Stoppin' and droppin'
And rockin' and stoppin'
Everything is fine
Said whatcha say
Rockin' and poppin'
And stoppin' and droppin'
Said everybody's gotta stop messin' with me
Stoppin' and droppin'
And rockin' and stoppin'
I just don't like people lookin' at me
Woa-oh woa-oh woa-oh woa-oh woah

All you guys sayin' whatcha say
Better not try to mess with me
I just don't like people lookin' at me
I just don't like people lookin' at me
All you guys sayin' whatcha say
Better not try to mess with me
I just don't like people lookin' at me
I just don't like people lookin' at me

Said woa-oh oh woa-oh oh woah
Said woa-oh oh woa-oh oh woah (x2)

Hey What are you lookin' at
You got people on your left and your right
We'll see what's going on
Said hey what are you lookin' at
I said hey
