You are making me  
Don't know how it's hard to see  
I feel it too, I feel it too  
You are making me  
Breaking me with all those lies  
Making me cry through the night  
I'm lost in my lies  
My true life I will deny  
So lost can't get out

You see what you do  
The lies that you prove  
The way that you do makes me want to lies too  
You see what tou do  
The lies that you prove  
The way that you do makes me wabt to lies too

So lost can't you see  
Maybe this is how it be

I see it too, I see it too  
Do you like me, the way that I want to be?  
You don't, so I lie at times.  
You making me  
Breaking me with all those lies  
Making me cry through the night ã  
I'm lost in my lies  
My true life I will deny  
So lost, can't get out

You see what you do  
The lies that you prove  
The way that you do makes me want to lies too  
You see what tou do  
The lies that you prove  
The way that you do makes me want to lies too
