Hard times don't let them push you down
Although they want you dead or alive
Earth is shaking, tumbling,
Hearts are breaking
Wanted dead or alive
It's on - no place to hide!

Shine
No rain will ever break us down
Now is the time, now is the time
Make your way, cause all you'll see is
Shining lights for you

Too many tried to bring me down
I don't care if they are dead or alive
Ice cold spaces, filled with empty faces
Seems to be what is right
But who are they to decide!

Shine
No rain will ever break us down
Now is the time, now is the time
Make your way, cause all you'll see is
Shining lights for you

Now it's all so clear
Yesterday was when I didn't know
What was then I'm gonna leave it all behind
How am I supposed to be it all, it all?

Shine
No rain will ever break us down
Now is the time, now is the time
Make your way, cause all you'll see is
Shining lights for you
[x2]

Shine
No rain will ever break us down
