(Hook)

Imma take you on my rocketship, girl
Pass the cloud nine, touching all the stars,
Now blast off, blast off, blast off.
Hop up on my rocketship, girl,
Let's blast off, blast off, blast off.

(Verse)

Let me take you to a place, girl, be quiet,
Put the love there to force, don't fight it.
We're going up, ain't nobody pulling us down,
Nobody's around.
We could feel comfortable to reach for the stars,
Love how you're stripping as we go past Mars
Get it, girl.
So spend it in mid air just as two and no worries, no
cares.

(Pre-Hook)

Hold me, baby, round we're floating
Tonight we're gonna be tearing up the galaxy
All night long.

(Hook)

Imma take you on my rocketship, girl
Pass the cloud nine, touching all the stars,
Now blast off, blast off, blast off.
Hop up on my rocketship, girl,
Let's blast off, blast off, blast off.

(Verse)

I'm too away in my willing, girl,
If you let me, I could take you to a different world,
We're on the moon doing things we never knew
And it feels so erotic, wanna touch your body.
Got me losing control, Huston has a problem I'm about
to explode.
I think we need mission control, cause we've gone way
have been before.

(Pre-Hook)

Hold me, baby, round we're floating
Tonight we're gonna be tearing up the galaxy
All night long.

(Hook)

Imma take you on my rocketship, girl
Pass the cloud nine, touching all the stars,
Now blast off, blast off, blast off.
Hop up on my rocketship, girl,
Let's blast off, blast off, blast off.

Walking on the moon just us two
Walking on the moon just us two.
