I thought you were special without asking myself why  
You mean nothing to me now  
'Cause in my head you were different but only for a  
Little while  
You mean nothing to me now  
I had the strangest feeling, it took me by surprise  
Your words just lost their meaning when I came down  
from  
My high  
My High  
Your poisonous but sadly you are not the lethal kind  
You mean nothing to me now  
'Cause in my head you are vicious, still stands the test  
Of time  
'Cause you mean nothing to me now

I had the strangest feeling, it took me by surprise  
Your words just lost their meaning when I came down  
from  
My high  
Some peace of mind then finally, it was all just in my  
Mind  
You mean nothing to me now  
Where will your heart run to?  
No places left to hide  
No cities left to leave, no tears left to cry  
I gave you all of my attention  
Whereas I say goodbye  
'Cause you mean nothing to me now  
You mean nothing to me now  
So fuck you
