There is a light at the end of the road
Someday I'll die
I'll be back home
Someday I'll fly
I'll be alone

Sometimes I fell my heart made of stone
I'll lock myself in my room
I'm the angel of cloud 9
I think I lost it
Lost my mind

Forest, woods, hybernation
Dreams of color, imagination
I hope you know
You're not alone
Because you have a heart of stone

Caress my heart untill I say alright
Love this and more for all your life
Make sure it works with all you can
Just let me know if you need a helping hand

Love and honor, make sure it stays
'Cause if you don't
It will go away
I hope you know
You're not alone
Because you have a heart of stone

I can see the fire in your eyes
I can see the strongness, I can't lie
I will give you wings and watch you fly

I'll make sure you'll never bleed
Because I want you to die happy
I hope you know
That you're home
Because you have a heart of stone

Angels flying, that means you're free

I'll be your family
I won't be mean

Let me see your heart(6x)
Let me see your heart of stone
Let me see your heart(6x)
Let me see your heart of stone

Forest, woods, and hibernation
'Cause if you don't it will go away
Love and honor, make sure it stays
I hope you know
You're not alone
Because you have a heart of stone
