You know something, I just can't believe
That people are all ready going out, and they are more
fly then me
I just wish your dead, and me
'Cause this music is making me wanna go dance and
sing
So shame on me, S-Shame on me
I just wish your dead, and me

Did you know that me...
Was mean all the time...
You know I can't believe...

Shame on me, tonight
I'm right here so let's dance and sing, let's go
Dance and sing
Sing the song and leave me
L-Leave me
L-Leave me
Shame on me, tonight
I'm right here so let's dance and sing, let's go
Dance and sing
Sing the song and leave me
L-Leave me
And Shame on me, yeah babe

Wo-oh-oh...

You know, this disease is making me more sick
And these people are all caliin' me off my telephone
I just wish your dead, and me
'Cause this music is making me wanna go dance and
sing
So shame on me, S-Shame on me
I just wish your dead, and me

Did you know that me...
Was mean all the time...
You know I can't believe...

Shame on me, tonight

I'm right here so let's dance and sing, let's go
Dance and sing
Sing the song and leave me
L-Leave me
L-Leave me
Shame on me, tonight
I'm right here so let's dance and sing, let's go
Dance and sing
Sing the song and leave me
L-Leave me
And Shame on me, yeah babe

Wo-oh-oh...

Did you know that me...
Was mean all the time...
You know I can't believe...
Did you know that me...
Was mean all the time...
You know I can't believe...

Shame on me, tonight
I'm right here so let's dance and sing, let's go
Dance and sing
Sing the song and leave me
L-Leave me
L-Leave me
Shame on me, tonight
I'm right here so let's dance and sing, let's go
Dance and sing
Sing the song and leave me
L-Leave me
And Shame on me, yeah babe

Wo-oh-oh...
