"Where To Begin"

Visit "[Where To Begin](#)" on MotoLyrics.com

Do you have the strength to tear down something new?
I've been shutting down all week
And I've been falling through
I'm watching the sun rise in New Jersey
Hear the water bruising up the shore
It couldn't rain another drop
But the sky is breaking for more

(Chorus)

So can you tell me where to begin
It's like I'm sinking like I'm caving in
So can you tell me where to begin
I was finished in your skin

I can see the skyline by the boardwalk
Something's calling me to something new
I guess I should go and that's why I'm here
To suffer distances
From you

(Chorus)

The morning sun it dries up the ocean
It burns like the salt in the waves
The tourists are all stirring
They are counting their days
