Train station by the lake
And I walked into a tree
Jericho fell, there's no showers in hell
But there's monsters in the sea
And I'm as true, as true can be
And I'm as true, as true can be

Too my hits on the trailer snitch
You said drop some concussions by tray
Find ourselves on the hard and stick
Of a forest in the shade
And I'm as true, as true can be
And I'm as true, as true can be

Take that and patience could relations come in 3's
So I took them and I planted them
With someone in the ground
Grew it to a giant bird it's never to be found
And I'm as true, as true can be
And I'm as true, as true can be.
