Stuckin in eyes the Lockwood run
Not a sin but it's so much fun

Take in the facts you compromise
Take in the gloss you realize
Take in the things you love
You will take in

Look at him he's been 80s guy
Love could take me good to a lady's eye

Take in the things you talk about
Take in the seats I walk about
Take in the things you love
You will take in

Take in the air a straighted man
Like laughing gas don't be jaded man
Take in the things you love
You will take in
You will take in
You will take in
