When I wake up in the morning
I know you're always there with me
The image that I'm seeing
Well, it still inspires me

Because of you the sun is shining
And there's not a cloud in sight
You give me strength of danger
Until I come back home at night

I said you were soul refreshing to see your face
Pick me up when I'm feeling down
And you chase my blues away

I said you were soul refreshing to see your face
I don't have to worry about my problems now
Because you bring me brighter days

Soul refreshing to see your face
Pick me up when I'm feeling down
And you chase my blues away

Soul refreshing to see your face
Don't have to worry about my problems now
Because you bring me brighter days

Soul refreshing
Soul refreshing
Soul refreshing
